Maintenance – 08. 26. 2008

Floor cleaning agent

General

Specially developed concentrate for new requirements in the field of cleaning and maintenance. Resistant to slipping. Appropriate for floors in sports halls. Complies with DIN 18 032, paragraph 7.5: non-slip surfaces. For all covered washable floor coverings and even for non-covered floors.

Purpose

For all washable floor coverings such as waxed concrete floors, floor resins, plastics, PVC, linoleum, natural and artificial stone, etc.

Instructions

Maintenance cleaning, mopping: Add 20 ml to 8 l of water. Spread the solution on the floor using the applicator, allow it to act for a few moments, remove the dirty water and allow to dry. The protective film becomes brilliant and resistant to slipping when polished. Apply the same dosage for self-washers. Intermediate cleaning, full spray: Divide large surfaces into widths of 2–2,5 m. Spray (add 80 ml to 8 l of water) regularly on the strips to be treated with a single brush, then polish. Spray method, initial treatment: Add 40 ml to 1 l of water.

Important recommendations

Not suitable for non-vitrified cork or wood floors.

Technical characteristics

Shelf life

At least 2 years.

Degradability of surfactants

Above 90 %.

pH value

Concentrated: 7.0 / 1%: 7.0

Components

Non-ionic surfactants, care products, preservatives, dyes, perfume.

The product causes irritation to eyes and skin. In case of contact with the eyes, wash immediately and thoroughly with water and consult a doctor. Keep out of reach of children. Use gloves/Store in a dry room away from frost and intense heat/All the information given in this technical sheet is given as for information only and shall not incur our responsibility.
